

Money Management Educators
11400 SE 8th Street, Suite 320
Bellevue, WA 98004

Dear MME:

We have had the pleasure of working with MME over the past month. They have provided our employees with invaluable financial planning education and money management advice. MME provided Outdoor Research two workshops which were both well received by our staff. They also conducted one on one sessions with employees looking for more personal financial planning education.

Thank you to Hallie Spies for taking the time to come out to our business. You and your colleagues were not only extremely knowledgeable but also very professional. You made the subject of money management relative to the realities of our employees and their day to day lives.

We look forward to conducting more workshops in the future with MME. Again, thank you for taking the time to educate and create financial goals for our employees and their families.

Sincerely,

Suzanne Vincent

HR Manager
