To Whom It May Concern:

Assembly Bio has been working with Chien Yeh from Money Management Educators ("MME") since I joined the company in 2017. I also worked with MME at my prior organization for several years. MME provides financial wellness seminars at no cost to employees or their employers. We've had high participation rates indicating that the employees appreciate this free benefit.

The instructors are exceptionally qualified professionals with expertise in areas such as 401(k), tax-favored investing, saving for college, wealth management, real-estate income, as well as wills, trusts and estate planning. Employees from all age groups benefit from these seminars.

I highly recommend MME as a valuable, no-cost, benefit for employees.

Sincerely,
